WHAT IS AN ELIXIR?

An elixir is a potent, non-alcoholic beverage crafted with plant medicine and natural ingredients designed to nourish the body, mind, and spirit. Infused with adaptogens, herbs, and botanicals. Each sip supports holistic well-being, harmonizing energy centers and awakening the senses. Whether grounding your roots or expanding consciousness, elixirs are a gateway to deeper connection, offering a taste of the earth's wisdom while guiding you to a state of balance and elevated vibrational alignment.

MAGICAL MOCKTAILS

KAVA GLOW (21+)

\$11

Embark on a journey to tranquility! Infusing the mystical essence of Kava, a brew rooted in ancient Pacific traditions with whispers of citrus and a touch of vanilla, each sip offers a serene escape, inviting relaxation and grounding your spirit. Let this effervescent potion be your guide to inner peace and elevated senses.

LUCID LOTUS

\$11

A divine fusion of blue lotus, pomegranate, hibiscus and ginger with sparkling citrus notes and sweet simplicity. This floral elixir gently opens your third eye and intuition, all while harmonizing your mood.

AMANITA MOONRISE

\$11

A bright mingling of lavender, citrus and ginger imbued with the essence of Fly Agaric. This uplifting, non-psychoactive elixir supports gentle relaxation and balanced mood, offering a refreshing sense of calm with every sip.

KAVA & KRATOM DRINKS (21+ ONLY)

WHAT IS KAVA?

Rooted in Pacific Island traditions for over 3,000 years, kava is a ceremonial drink known for its calming, euphoric effects. Made from the root of the Piper methysticum plant, kava promotes relaxation, stress relief, and a sense of well-being without impairing mental clarity. Traditionally used in social gatherings and rituals, kava is now enjoyed worldwide as a natural alternative to unwind.

WHAT IS KRATOM?

Kratom, derived from the leaves of the Mitragyna speciosa tree native to Southeast Asia, has been used for centuries for its stimulating or relaxing effects, depending on the strain and dose. Traditionally chewed or brewed as tea, now available in a canned beverage, kratom can enhance focus, boost energy, or promote relaxation. It is often enjoyed as a natural way to support mood and well-being.
